

talking about the cost of it. Yesterday it was the cost would more than offset the \$10. I just wonder now if you think the cost would more than offset the...here.

SENATOR LABEDZ: I don't know what...I don't understand your question. What is your question?

SENATOR VON MINDEN: I just wonder if there won't be more work printing the stamps and sending them out there and offset what you are going to get the \$10. That was the same thing that was brought up yesterday in my amendment, and I just wonder what your feelings are on it now.

SENATOR LABEDZ: The opinion is this, for one thing you go to a vendor; you can go to a service station, you can go to a sporting goods store, you can go anywhere or even some of the supermarkts carry them as vendors. They buy the park entry permit for recreational purposes. They are not forced to buy it. We were forcing the people on the other bill that you mentioned....

SENATOR VON MINDEN: But we were not....

SENATOR LABEDZ:to purchase a sticker whether they...it wasn't a matter of choice. They had to buy one. This one is a matter of choice. If you want to use the park system and you want the advantages and the things that we show in the parks, the clean restrooms and the beautiful grounds, the wonderful cabins, the swimming pools, the tennis courts, we are going to have to pay for them.

SENATOR VON MINDEN: Well I don't want to debate any further. The cost means nothing now, that's what you are saying.

SENATOR LABEDZ: The vendors get just a quarter now for selling that permit, and they do a very good job and sell many, many permits. I don't see what the comparison is on the studded snow tire bill and a park entry permit, and I am confused on that part.

SENATOR VON MINDEN: Okay, all right. I wish to oppose this amendment also. My goodness sakes, it is going to get so doggone high that we can't even get into our parks. Yesterday we were referring to...we were picking on the old and the helpless who have to have the studs right now. My goodness sakes, we have people where I live that like to go out and drive in their park in the evenings. If you are going to put a \$10 fee on here, you are going to prohibit them from going at all. I wish to oppose this amendment.

SPEAKER NICHOL: Senator Sieck.
